B4

GRAFFITECH

A unique and professional product that removes graffiti, stickers, price tags, and glue. Removes paint from tiles with a rough texture.

GRAFFITECH - B4 is a multi-purpose professional product that efficiently cleans and removes a wide range of stains and dirt. This product is essential for the home, office, factory, car, buildings, stores, restaurants, public structures.

Because of its neutral PH effect, it does not erode sensitive surfaces.

USES

Can be used to remove all kinds of stickers, dissolve excess glue, remove paint and ink stains, price tags, grease, masking tape, all kinds of glued posters, resin, and graffiti. Removes silicon, chewing gum, wallpaper glue, shoe marks, wax, cosmetic products, nail polish and more.

Is suitable for use on glass, metal, marble, natural stone, granite porcelain, ceramics, aluminum, plastic and PVC, wood, epoxy, cement, rugs, fabric and other surfaces. (It is advised to test on small section before use.)

APPLICATION INSTRUCTIONS

Shake can well before use. Test on small section of surface to be treated to check for damage. Spray on surface until completely wet, wait a few minutes and wipe with a dry cloth.

To remove graffiti from concrete, natural stone, marble, or grooved infrastructure, spray generously on surface and wait a few minutes. Use a scrub brush and rinse with SAG Active Cleaner goo and water. Repeat procedure if needed.
